**CIRCULAR TO STUDENTS OF CLASS IX and X
PSYCHOMETRIC ASSESSMENT**

Dear Parents and Students,

Greetings from Indian School Muscat!

Psychometric tests are those tests through which talents, skills, and ability of a person can be measured. The test is very beneficial to students and reveals their cognitive capability. By taking these psychometric tests, students are able to measure their skills, talent, and ability and that helps the students in selecting the stream or the career.

Samriddhi offers free Psychometric Assessment for the students of Indian schools. At the end of the test, students will receive a comprehensive report about their abilities and aptitudes along with recommended career options.

Eventually this will help the students to choose the right stream after Class X, which is one of the most important decisions in their life. It is one of those decisions that has a huge impact on the career as well. By these student's aptitude and ability are determined, subject interest and choices which will define his career are identified.

Through the test, students will also come to know the amount of stress and anxiety they are capable of handling. Therefore, it is imperative that such decisions are taken after much planning with due consideration of one's aptitude and abilities.

The Board is conducting a Psychometric Assessment online for the students of Class IX and X of Indian School Muscat starting from Sunday, 18th December 2022.

Interested students can register using the following link:

<https://samriddhi.center/samriddhi-aptitude-test/>

The last date of registration is Friday, December 16, 2022. The registered students will be informed about the test schedule through email.

With warm Regards

Dr Rajeev Kumar Chauhan
Principal
