The students are required to be cautious while using this platform as it is meant only for academic teaching-learning. They are strictly advised not to use the chat box for passing any personal/private message. Stringent action will be initiated against those who violate this.

As this initiative is taken for the first time, it is possible that things might not work as desired due to various factors. However, we would request all to be patient and we seek the cooperation of every Student and Parent to use the facility provided to the best.

The schedule of online live classes for Class IV is given below for your reference.
