Circular to Parents of Class IV (Pilot Programme)

Dear Parent,

We are extremely happy to announce that ISM is going one more leap in making the teaching-learning process more effective. We have already launched VLE (Virtual Learning Environment) for Classes X & XII where video lessons are available to the students. Now, we are extending this to the Primary Section level with an added feature JITT.

Just-in-Time Teaching (JITT) is a teaching and learning strategy designed to promote the use of class time for more active learning. These are short, web-based assignments designed for students to complete before receiving instruction on a topic. They prompt students to think about the upcoming lesson and to answer a few simple questions before class to prepare them to develop more complex answers in cooperative groups in class. Class time can focus on the points for which students need more help, and it can be structured around specific student responses, allowing an element of personalization.

In order to log on to this feature, click on the link <https://isovle.net/login/index.php>. Detailed step by step instructions are given below.

We urge your ward to make use of this feature for concept based learning.

With Best Regards

Dr. Rajeev Kumar Chauhan
Principal
