# Join a class as a student

*This article is for students*

To use Classroom, you need to sign in on your computer or mobile device and then join classes. Then, you can get work from your teacher and communicate with your classmates. When you join a class on one device, you're enrolled in that class on all devices.

## How to join a class

You have 2 ways to join a class:

- **Join a class with a class code**—If your teacher gives you a class code, use this code to add yourself to the class. Your teacher might give you the code while you're in class or email it to you.
- **Accept an invitation from your teacher**—If your teacher sends you an invitation, you'll see **Join** on the class card on your Classroom homepage.

When you use  
Google  
Classroom make  
sure that you use  
only  
“School email Id”
