

INDIAN SCHOOL MUSCAT MIDDLE SECTION FIRST PERIODIC TEST 2019- 20

SOCIAL SCIENCE (SET-A)

Code: MESS01

Answer Key

CLASS: V		Time Allotted	: 40 mins	; .
23.05.2019		Max .Marks: 2	20	
		MARKS OBTAI	NED:	
Name		Roll Number		
General Instr	uctions:			
1. All question	ns are compulsory.			
2. All answers	s should be written in the question paper itself.			
3. Neatness s	should be maintained.			

Q.No	SECTION A	MARKS
1.	NAME THE FOLLOWING WITH APPROPRIATE ANSWERS:	1X3=3
	a. A book of maps is called an <u>atlas</u>	
	b. The latitudes and longitudes intersect each other at right angles and form a series of squares grid	
	c. A shape or sign that is used to represent something symbol	
2.	FILL IN THE BLANKS WITH APPROPRIATE ANSWERS:	1X3=3
	a. North, South, East and West are the four <u>cardinal</u> directions.	
	b. The 180 ⁰ East and 180 ⁰ West longitudes meet and form a single line called the International Date Line .	
	c. The maps showing boundaries of different countries or different states and the important cities are called Political Map .	
3.	CHOOSE THE CORRECT ANSWER FROM THE OPTIONS:	1X3=3
	a. It measures the distance of a place north or south of the Equator	
	1. Latitudes 2. Longitudes 3. Poles	
	b. There are degrees of latitude in all.	
	1. 180 2. <u>181</u> 3. 90	
	c. International boundaries are represented in a map by using this

	symbol	
4.	1 2 3 OBSERVE THE FOLLOWING PICTURE AND LABEL THE FOLLOWING:	1X1=1
	90° 80° 40° 20° 20° 40° 20° 40° 30° The latitude of 23½ °N is Tropic of Cancer	
	SECTION B	
5.	ANSWER THE FOLLOWING QUESTIONS IN ONE POINT:	1X4=4
	 a. Define longitude. Longitudes are imaginary lines that run vertically from the North Pole to the South Pole. 	
	 b. What do you mean by "Eartha"?(Any One) The largest globe in the world is called Eartha and it is located in Yarmouth, in Maine, USA. It is a three dimensional scale model of our Earth and it shows mountains and other landforms. 	
	c. Define Scale. • The scale of a map is the ratio between distance shown on the map and the actual distance on the ground.	
	 d. What is a map? A map is a drawing of the Earth's surface, or a part of it, on a flat surface, such as a sheet of paper. 	
6	ANSWER THE FOLLOWING QUESTIONS IN TWO POINTS:	2X3=6
	 a. Why do we prefer to use maps instead of globes?(Any Two) This is because globes are difficult to carry around. All the parts of the earth's surface can be seen at the same time in maps. Maps can show detailed information. 	

Page 2 of 2 Code: MESS01

b	 Explain the features of Latitudes.(Any Two) Latitudes run parallel to each other in the east-west direction. They are at an equal distance from each other. All of them form complete circles, except the North and South poles, which are points in length as you move from the equator to the poles. The latitudes decrease in length as you move from the equator to the poles 	
c.	 What do you know about the 0° Meridian? The longitude running through the old Royal Observatory at Greenwich near London is marked 0°. It is called the Greenwich Meridian or Prime Meridian. 	
	End of the question paper
