

## INDIAN SCHOOL MUSCAT MIDDLE SECTION SECOND PERIODIC TEST 2019-20

		<u>SUBJECT</u>	<u> –SCIENCE – SET A</u>	Code: MYSC03			
CLASS: VII				Time Allotted: 40 min	nutes.		
12.01.2020		ANSWER-KEY Max. Marks: 20		Max. Marks: 20			
		ANOWER RET		Marks obtained:			
Q.NO.	SECTION A						
	<u>FILL IN</u>	THE BLANKS			Marks		
1.	Soft silk yarn is as strong as a comparable to a thread of steel.						
	Ruminants have a large sac-like structure between the oesophagus and the small						
2.	intestine called <u>rumen</u> .						
	The upp	ermost layer of the ski	n in the sheep is dead, so <b>shearir</b>	<u>ng does not hurt the</u>			
3.	sheep.						
4.	Amoeba	a forms one or more fing	ger-like projections, called <b>pseud</b>	opodia or false feet			
4.	for movement and capture of food.				1		
5.	Liver is the largest gland in the human body.						
6.	The process of taking out threads from the cocoon for use as silk is called <b>reeling</b> of the silk.						
	MULTIPLE CHOICE QUESTIONS						
7.	Cotton :	Cellulose ::	: Protein				
	(a) Jute		( <u>b) Silk</u>	Answer: <b>(b) <u>Silk</u></b>			
	(c) Line	n	(d) Nylon				
8.	Which of the following pair of teeth differ in their structure but are						
		similar in their function? Answer: (d)					
	. ,	nes and incisors	(b) premolars and canines	molars and premolars			
	(c) incis	ors and molars	(d) <u>molars and premolars</u>				
9.	Which o	f the following is not a	type of silk?		1		
	(a) Tass	ar silk	(b) Mulberry silk	Answer: (c) Moth			
	(c) <u>Mot</u>	<u>n silk</u>	<b>(d)</b> Moga silk	<u>silk</u>			
10.	Ingestion	n is the process in whic	ch an organism	Answer: (d)	1		
				~ /			

	(a) captures of the food.	intakes the food				
	(b) expels undigested food from the body. <u>into the body.</u>					
	(c) digests the food.					
	(d) <u>intakes the food into the body.</u>					
11.	and camels found in South					
	America also yield wool.	Answer: <b>(c)</b>				
	(a) Llama and Yak (b) Angora goat and Yak.	<u>Alpaca and Llama</u>				
	(c) <u>Alpaca and Llama</u> (c) Alpaca and Angora Alpaca					
12.	Proteins that build part of our cells are made up of	Answer: (a)	1			
	(a) <u>Amino acids</u> (b) Base (c) Acetic acid (d) Nitric acid	<u>Amino acids</u>				
	SECTION B					
	ANSWER IN ONE WORD OR ONE SENTENCE					
1.	What is the role of the mucus secreted by the stomach?					
	Ans: The mucus protects the lining of the stomach from the corrosive action					
	of hydrochloric acid secreted by the stomach. (1 mark)					
	of hydroemone acid secreted by the stomach. (I marky					
2.	What is meant by the term, Sericulture?					
	Ans: The breeding and management of silk worms for the production of silk is					
	known as sericulture. (1 mark)					
3.	Name the parts of the alimentary canal		1			
	(i) where water and some salts from the undigested food material is absorbed.					
	Ans: Large Intestine (1/2 mark)					
	(ii) which is a large cream coloured gland located just below the	e slomach				
	Ans: Pancreas (1/2 mark)		1			
Λ	Why are sheep reared for wool, selectively bred?					
4.		مام بربام مام تعامل	•			
4.	Ans: Certain breeds of sheep have thick coat of hair on their b		·			
4.		wool are	·			

<ul> <li>gall bladder. After the surgery, she faced problems in the digestion of certain food items, when consumed in large quantities. She is being advised to consume that component of food in minimal quantity in her daily diet.</li> <li>a) Can you identify, which kind of food items would that be?</li> <li>Ans: After the surgical removal, Ananya would face problems in the digestion of fat containing foods. (1 mark)</li> <li>b) Why is the digestion of this food item difficult?</li> <li>Ans: Because bile juice is stored in the gall bladder helps in the digestion of fats. (1 mark)</li> <li>6. Why do wool yielding animals have a thick coat of hair?</li> <li>Ans: Wool yielding animals are found in hilly and cold regions so the hair of these animals (sheep, goat etc.) trap a lot of air. (1 mark)</li> <li>Air is a poor conductor of heat and keeps these animals warm during winters. (1 mark)</li> </ul>	5.	Ananya got her gall bladder removed surgically as she was diagnosed with stones in	2
