| Q.1       | <p><b><u>SECTION A</u></b></p> <p><b><u>Read the following passage and answer the following questions based on your understanding of the passage:</u></b></p> <p>When I was in 4th grade, I got to take a trip to the moon. It all started when Miss Fritz, our fourth grade science teacher, was showing a video about the Solar System and different planets. Halfway through the video, I noticed a sparkling metal disc lying on the floor. As soon as I touched the metal disc, I found myself hovering in the air. I was a little nervous, but also pretty excited. What was happening? How could I be floating?</p> <p>I opened my palm and looked closely at the disc which read “Floating through the air, like a helium filled balloon, your travels will not stop, until you reach the moon.” Before I knew it, I was standing on the moon. It was amazing! It looked very different than the Earth. Suddenly, I saw something in the distance. When I got there, I realized it was a flag. On the flag were the words: “To go to Earth, close your eyes and think of what you’ve learnt.”</p> <p>I knew it might get dark soon so I decided to return. I closed my eyes and thought of the weather and other characteristics of the moon I’d learnt that day. When I opened my eyes I was sitting in my desk in my science classroom. Miss Fritz was turning on the lights because the video was over. I opened my hand to look at the metal disc, but it was gone! Did I really take a trip to the moon or was it just a dream?</p> |                        |
