

STD. III

THOMAS ALVA EDISON (RAPID READING)

I. Find the meaning of the given words using the dictionary.

1. curious – eager to know something
2. pleased – happy, glad
3. basement – lower ground floor
4. crash – hit, collide
5. process – a step-by-step way of doing something
6. automatic – something that can work by itself without one's help

II Answer the following question.

Q1. Describe Thomas Alva Edison as understood from this lesson.

A1. Thomas Alva Edison was a very curious child and was always asking questions.

As he grew up, he became one of the greatest inventors through his hard work.

He was a truly great man who believed in giving second chances to people so that they prove themselves.
