SCIENCE

Note Book Work

Topic: What Are Things Made Of?

I. Answer the following questions.

1. What are Natural Resources?

The resources which come from the natural environment are called natural resources.

They are useful to humans in many ways such as soil, water and forest etc.

2. How do we get Plastics?

Plastics are made from petroleum which is dug out from deep under the Earth.

3. What is used to make Linen?

The fibre from the flax plant is used to make linen.

II. Give Reason

1. Metals are important in our daily life.

We use metals to make utensils, bodies and engines of cars, buses, trains, aero planes. machines, electric appliances and wires etc. So metals are important in our daily life.
