

# Six Steps Toward Integrity!

Six Steps Toward Integrity!

6 Things People with Integrity do

# *1: Taking Responsibility*

- A person of integrity is willing to be **totally responsible** for his/her actions.
- This means that a person of integrity does **not** blame other people for things.
- Example: I drop my mom's favourite glass, and my little brother is right next to me. What would a person of integrity do?

## 2: *Taking Care Of Ourselves*

A person of integrity can support him/herself and doesn't depend on other people for everything. This includes taking care of one's needs and stay physically fit and have enough money.

# ***3: Thinking Of The Big Picture***

- People of Integrity think of how everyone else around them is doing.
- They often ask the question, “Is this good for everyone or just me?”
- The needs of the many outweigh the needs of the few.

# *4: Respecting Others*

A person of integrity will “Think of other people as better than him /herself,” Give other people honour and expect to receive from other people.

# *5: Checking the Mirror*

A person of integrity looks at themselves, and always wants to improve him/herself. Also, a person of integrity can admit when something is wrong with him / her.

## ***6: Stand Up For What Is Right And Wrong***

- A person of integrity will live the truth, what is right, no matter what other people do or say.
- A person of integrity will stand up and speak if something wrong is happening.
