PRIMARY SECTION**

SUBJECT: SCIENCE	TERM I	NAME:	
WORKSHEET : 6		STD IV:	ROLL NO:
TOPIC: DIGESTION		DATE: / / 18	
RESOURCE PERSON: Ms. Nandita C.		TEACHER'S SIGNATURE:	

I. Answer the following.

1) Why do you think your diet should contain enough fruits and vegetables?

2) Your parents often tell you not to eat chips, chocolates and ice creams every day. Why do they say so?

II. Give reasons.

An athlete should not run a 100 m race just after eating his food.

III. Justify the statement.

We should rest for a while after eating our food.

IV. Define.

Digestion

V. Write true or false. If false, rewrite the sentence correctly.

a) The digested food is absorbed into the blood through the walls of the large intestine.

b) The stomach muscles churn the food with digestive juices.

VI. Label the parts of the digestive system in the diagram and complete the table given below.

Digestive Organ	Function in Digestion
Mouth	
Tongue	
Stomach	
Small Intestine	
Large Intestine
