

INDIAN SCHOOL MUSCAT
DEPARTMENT OF COMMERCE AND HUMANITIES
SENIOR SECTION
CLASS – XI
PSYCHOLOGY (037)
WORKSHEET No:- 3
CHAPTER No.3:- The Bases of Human Behaviour

Date:-----

Objective Questions

1. The Adrenal cortex secretes a group of hormones called _____.
2. The nerve fibres work according to the _____.
3. Our _____ structures play an important role in the organisation and execution of behaviour.
4. Human evolution involves both genetic and _____ transmissions.
5. Adrenal medulla secretes _____ and _____ hormones.
6. Chromosomes are composed mainly of a substance called _____.
7. The Cerebrum is also known as _____.
8. _____ refers to cultural and psychological changes resulting from contact with other cultures.
9. The most important part of the Midbrain is known as the _____.
10. Which is the basic unit of our nervous system
 - (a) Nucleus
 - (b) Soma
 - (c) Neurons
 - (d) Dendrites
11. Which lobe is mainly concerned with cutaneous sensations and their coordination with visual and auditory sensations.
 - (a) Temporal Lobe
 - (b) Occipital Lobe
 - (c) Frontal Lobe
 - (d) Parietal Lobe

12. This gland is situated within the cranium just below the hypothalamus.
- (a) Thyroid Gland
 - (b) Adrenal Gland
 - (c) Pituitary Gland
 - (d) Pancreas
13. This refers to an attitude in which people seem to place a value on holding on to their original culture
- (a) Marginalisation
 - (b) Separation.
 - (c) Assimilation
 - (d) Integration
14. The Nervous system can be divided into
- (a) Somatic Nervous System and Autonomic Nervous System
 - (b) Central Nervous System and Peripheral nervous system
 - (c) Brain and Spinal Cord
 - (d) Sympathetic division and parasympathetic division

Theory Questions

1. What is evolution?
2. What are the three factors which are differentiating modern human being from ancestors?
3. Define neuron and explain the structure of a neuron?
4. What is synapse and synaptic cleft?
5. Explain about C.N.S?
6. Explain about P.N.S?
7. Explain the structure of Hind Brain?
8. Explain the structure of Mid Brain?
9. Explain the structure of Fore Brain and various Lobes of Brain?
10. Explain the structure and functions of Spinal cord?
11. Explain about Endocrine Glands and their functions?
12. What is heredity?
13. What is mutation and what is impact on human development?
14. What are chromosomes?
15. What is socialization and what are the various agents?
16. What is Enculturation?
17. What is Acculturation and what are its strategies explain with the relevant examples?
