Variable cost- These are those costs which vary as a total cost to the organization when varies</li> </ol> </li> </ol>	3
	10	<p>Retained profits- Under this, all profits of a company are not distributed amongst the shareholders as dividend, but a part of it is retained and reinvested in the business.</p> <p>Equity shares- Equity shareholders are the virtual owners of the company. Hence the company is under no obligation to pay either the dividend or the principal amount. This makes them the risk bearers. They enjoy voting rights.</p> <p>Preference Shares-They enjoy two rights</p> <ol style="list-style-type: none"> <li>a. The payment of dividend at a fixed rate before paid to equity shares</li> </ol>	3

		b. The return of capital at the time of winding up	
	11	<p>All cash transactions are to be recorded in a book called cash book/ cash register. It is the book of original entry.</p> <p>Cash inflow is the items which come into the business. Ex: Owner's equity, Sales receipts, Interest earned, Sale of scrap, Claims received.</p> <p>Cash outflow is the items by which cash goes out of the business. Ex: Purchase of land, building, machinery, raw materials, rent paid, Interest on loan Salary paid etc.</p>	3
	12	<p>a. Variable cost= Direct labour + Direct Material + Direct overhead (100% of direct labour)</p> <p>= 20+50+20 = 90</p> <p>b. BEP in units= <math>\frac{\text{Fixed cost}}{\text{Gross margin}}</math> = <math>\frac{9,00,000}{120-90}</math></p> <p>= 30,000 units</p> <p>c. BEP in ₹= 30,000 X 120 = 36,00,000</p> <p>d. BEP for target profit= <math>\frac{9,00,00 + 60,000}{120- 90}</math> = 32,000 units</p> <p>e. BEP in units if fixed cost increases by 10%</p> <p>Fixed cost = 9,00,000 + 9,00,000X10% = 9,90,000</p> <p>BEP in units= <math>\frac{9,90,000}{30}</math> = 33,000 units</p>	5
	13	Venture capitalists are typically very selective in deciding what to invest in and as a rule of thumb:	5

		<p>1) They may invest in one in four hundred opportunities presented to it,</p> <p>2) Looks for the extremely rare, yet sought after qualities, such as: a) innovative technology, b) potential for rapid growth, c) a well-developed business model d) an impressive management team.</p> <p>3) Looks for an "exit" in the time frame of typically 3-7 years.</p> <p>4) Is inclined towards ventures with exceptionally high growth potential. The VC do not fund for seed capital as its result and return both are not sure.</p>	
	14	<p>The entrepreneur need to assess</p> <p>a. What kind of people does he need?</p> <p>Manning table of managerial staff</p> <p>Top level- BOD, President, General Director, CEO</p> <p>Middle level- Departmental heads</p> <p>Lower level- Foremen. Supervisors, Superintendents</p> <p>b. How many people does he need?</p> <p>Selection of personnel</p> <ol style="list-style-type: none"> <li>1. Selection</li> <li>2. Training</li> <li>3. Orientation and Induction</li> <li>4. Performance appraisal</li> <li>5. Feedback</li> <li>6. Motivation and remuneration</li> <li>7. Participation in management</li> <li>8. Compensation and welfare</li> </ol>	5
	15	<p>There are three expansion options</p> <p>a. Intensive expansion – Penetration strategy, Product development strategy and Market development strategy</p>	5

		<div>b. Integration – Vertical expansion and Horizontal expansion</div> <div>c. Diversification</div> <table><tr><td></td><td>Current Market</td><td>New Market</td></tr><tr><td>Current Product</td><td>Market penetration</td><td>Market development</td></tr><tr><td>New Product</td><td>Product Development</td><td>Diversification</td></tr></table> <div>(Point with explanation)</div>		Current Market	New Market	Current Product	Market penetration	Market development	New Product	Product Development	Diversification
