SET	II

INDIAN SCHOOL MUSCAT FIRST PRE BOARD EXAMINATION 2023 PSYCHOLOGY (037)

CLASS: XII Max.Marks: 70

SI NO	SECTION - A	Marks Split up
1	B. Contextual intelligence	1
2	B. Linguistic	1
3	D.Self-control	1
4	A. Satva guna	1
5	B. Denial	1
6	D. Cohesiveness	1
7	D. Storming	1
8	C. Logo therapy	1
9	C. Dopamine	1
10	B. I & III	1
11	A. Modelling	1
12	B. Both (A) and (R) are true, and (R) is not the correct explanation of (A).	1
13	A. Both (A) and (R) are true, and (R) is the correct explanation of (A).	1
14	B. Bodily Kinesthetic	1
	SECTION - B	
15	 Psychometric approach Information processing approach	2
	• Intrapersonal awareness	
	• Interpersonal awareness	
	(Each point 1 mark)	
16	 Horney rejected the Freud's view women as inferior and she said that the Gender is not having any role in determining superiority or inferiority 	2
	Women are affected by the society and culture; Psychological disorders are resulting due to disturbed interpersonal relationship during the childhood. (Each point 1 mark)	
17	 Gestalt is a German word which means whole, it is a holistic approach to treat the psychological disorders. Gestalt therapy can be used in group settings. Gestalt therapy was developed by Fritz and Lara Perl's, in this method of treatment an individual will be asked to act out of fantasies and day dreams to face the reality. 	2
10	(Each point 1 mark)	
18	• Group Polarization is the strengthening of the group's initial position as a result of group interaction and discussion. It has been found that groups are more likely to take extreme decisions than individuals alone.	2

When we find others also favouring a particular decision, we feel that this view is validated by the public. This is called bandwagon effect. (Each point 1 mark) SECTION - C 19 Neuroticism vs Emotional stability Extraversion vs Intraversion Psychoticism vs Sociable (OR) Endomorphs Mesomorphs Ectomorphs (each point 1 mark) 20 Task oriented coping Psocial deach point 1 mark) 21 Primary appraisal Secondary appraisal Secondary appraisal Secondary appraisal Controllability and Past experiences (Each point 1 mark) 22 Creativity stands on divergent thinking ability whereas intelligence stands on convergent thinking ability. Creative children will have some amount of intelligence and at the same time a highly intelligent child may not be creative. Intelligence is solution focused thought and behavioral pattern whereas creativity includes multiple solutions. (Each point 1 mark) SECTION - D 23 Learning Scape goating Strong social identity and in group bias Kernel of truth Self-fulfilling prophecy (Each point 1 mark and any four need to be explained) Cach point 1 mark) 4 Dissociative Amnesia Dissociative Amnesia Dissociative fugue Dissociative identity Depersonalization (Each point 1 mark) Security Status Goal achievement Satisfaction of needs (Each point 1 mark) Situates Cool and the satisfaction of needs (Each point 1 mark) Security Status Goal achievement Satisfaction of needs (Each point 1 mark) Security Status Goal achievement Satisfaction of needs (Each point 1 mark) Security Status Goal achievement Satisfaction of needs (Each point 1 mark)
