| CLASS: 10 | INDIAN SCHOOL MUSCAT<br>SECOND PERIODIC TEST  | SUBJECT:<br>Mathematics |
|-----------|---|-------------------------|
| 10        | SET - C   | Tradic matter           |
| QP.NO.    | VALUE POINTS  | SPLIT UP MARKS          |
| 1.        | Simplifying the equation as $x^3 - 6x^2 - 14x - 8 = 0$<br>No, as it is not of the form $ax^2 + bx + c = 0$        | 1 1                     |
| 2.        | Substituting $\frac{1}{2}$ in the equation and finding p = 2  | 1                       |
|           | Finding $\beta = -\frac{3}{2}$  | 1                       |
| 3.        | Equating D = 0  | 1                       |
|           | Simplifying and Obtaining $k=8$   | 1                       |
| 4.        | Solving steps   | 1                       |
|           | Values of $x$ as $\sqrt{2}$ and $-\frac{\sqrt{2}}{6}$   | 1                       |
| 5.        | Values of $x$ as $\sqrt{2}$ and $-\frac{\sqrt{2}}{6}$ $2x^2 + 14x + 9 = 0 \Rightarrow x^2 + 7x + \frac{9}{2} = 0$ | 1/2                     |
|           | $\Rightarrow x^2 + 7x + \left(\frac{7}{2}\right)^2 = -\frac{9}{2} + \left(\frac{7}{2}\right)^2$                   | 1                       |
|           | $\Rightarrow \left(x + \frac{7}{2}\right)^2 = \frac{31}{4}$   | 1                       |
|           | $\Rightarrow x + \frac{7}{2} = \pm \frac{\sqrt{31}}{2}$ $\therefore x = \frac{-7 \pm \sqrt{31}}{2}$               | 1/2                     |
|           | $\therefore x = \frac{-7 \pm \sqrt{31}}{2}$   | 1/2 +1/2                |
| 6.        | Simplifying the equation to $x^2 - 3x = 0$  | 2                       |
|           | $D = 5 > 0 \Rightarrow 2$ distinctreal roots  | 1                       |
|           | Solving for $x = 0,3$   | 1                       |
| 7.        | Assumptions   | 1/2                     |
|           | Framing the relation $x^2 + (x+2)^2 = 290$  | 1                       |
|           | Simplifying the equation to $x^2 + 2x - 143 = 0$  | 1/2                     |
|           | Solving and getting $x = 11, -13$   | 1 1/2                   |
|           | Rejecting - 13 Therefore the numbers are 11 and 13  | 1/2                     |
