

**INDIAN SCHOOL MUSCAT**

**MIDDLE SECTION**

**DEPARTMENT OF SCIENCE**

**Subject : Science**

**Revision worksheet: 13**

**Topic : Living organisms and their surroundings**

**Class: 6**

**Date of issue: 16/01/2018**

**Coordinating Staff: Ms. Jona Anthony**

**Q 1) Unscramble the given words below to get the correct word using the clues given.**

- a) **SATPADAPOINT** specific features or certain habits which enables a living being to live in its surrounding \_\_\_\_\_
- b) **RETECOXNI** Waste products are removed by this process \_\_\_\_\_
- c) **LUMISIT** All living things respond to this \_\_\_\_\_
- d) **ROUCDPRENTOI** Because of this we find organisms of the same kind \_\_\_\_\_

**Q 2) Classify the following habitats into terrestrial and aquatic types**

Grassland, pond, Oceans, garden, desert, aquarium.

---

---

**Q3) Why is reproduction important for organisms?**

---

---

**Q4) Why do desert snake burrow deep into the sand during the day?**

---

Q5) write the adaptation in aquatic plants and animals due to which:

- a) Submerged plants can bend in the flowing water.

---

- b) Leaves can float on the surface of water.

---

- c) In dolphins and whales to breathe in air when they swim near water.

---

Q6) Mention one adaptation present in the following animals:

- a) In camels to keep the body away from the heat of the sand.

---

- b) In frogs to enable them to swim.

---

Q7) What are the features present in a deer that help it to detect predators like lion?

---

Q8) Like many animals although a car moves it is not considered as a living organism. Give two reasons.

---

---

Q9) What are the adaptive features of a lion that helps it in hunting?

---

---
