

SUBJECT: SCIENCE

INDIAN SCHOOL MUSCAT

DEPARTMENT OF SCIENCE

Revision Worksheet No: 8

TOPIC: ELECTRICITY AND CIRCUIT		STD: VI	
Coo	rdinating Staff: Ms Roja Zalam		
Date	of Issue: 10/10/2017		
Name of the student: I .Define the following:		Class Sec: _	Roll No:
a.	electric cell		
b.	Switch		
c.	Electric circuit		
d.	Filament		
2. Na	me the components of an electric circuit?		
_			
	/hat will happen if we join the two termi	inals of the electric cel	II directly through a wi

4. Explain how does a bulb glow in a circuit when it is connected to an electric cell?			
5. How can an electric bulb get fused	d?		
5. Why are rubbers and plastics used	d to cover electric wires at plug tops?		
'. Distinguish between conductors a	and insulators .Give 2 examples of each.		
8. Write any 4 activities which use el	lectric current. Name the device used to perform the activity.		
Activity	Device		
e.g.: get light	torch		
Draw an electric circuit diagram w	vith an electric cell, a bulb, wires and an electric switch.		
5. Draw an electric circuit diagrafff w	viti an electric cell, a buib, whes allu all electric switch.
